

I am asking that you continue to keep K-Love 90.7 in my area on the air as a FM and not LPFM.

My entire family has enjoyed listening to K-Love since I discovered it 2 years ago. It is the most uplifting station on the air. My 8 year old granddaughter really enjoys listening to it and I am not concerned about her hearing something too mature for her ears which are on most other radio stations. It keeps us up to date on activities going on in the our churchcommunity. There aren't any other stations in our area that I feel good about my granddaughter listening too, especially as she gets closer to her teenage years. There are other Christian station but most have a lot of talking programs on them, which is good at times, but for children they will listen to the songs and get the message out of the words of the song.

It's not just entertainment it helps us spiritually.

If it should

be made to fall under the LPFM we would not

be able to pick it up

in our area. I know many people who listen

to this station and

would be very disappointed if they were unable

to pick it up because the LPFM is given priority over FM translator service, leaving us without the K-Love signal.
